## EDUCATION

**Rutgers, The State University of New Jersey**, New Brunswick, NJ

**2015-2019**

Double Major: Bachelor's of Arts in Computer Science, Bachelor's of Science in Information Technology

GPA: 3.66

Extra-Curriculars: Undergraduate Student Alliance of Computer Scientists Mentor, National Society of Leadership and Success

## EXPERIENCE

**iCims, Holmdel, NJ**

**Summer 2018**

*Test Engineer Intern*

Worked in fast-paced Agile Scrum team with summer goal to add robust reporting capabilities to search API.

- Added optional JSON parameter to return specified user information and improve performance time.
- Automated Selenium Webdriver tests in Java to simplify multiple tests down to a button click.
- Created test plans and ran manual tests using the TestRail platform to better encompass all error scenarios.
- Worked as Scrum Master for multiple sprints and moderated meetings and weekly work output.
- Assisted in debugging and testing support tickets to provide immediate release fixes.

**L'Oreal, Berkeley Heights, NJ**

**Summer 2017**

*HRIS Analyst Intern*

Made use of various types of Human Resources software to parse databases and create reports.

- Redesigned L'Oreal-wide HRIS homepage using Microsoft Sharepoint software and other HTML elements.
- Assisted in L'Oreal Anywhere mobile app development with Capriza software.
- Created Windows batch files to automate manual data entry, file-moving, and internet navigation.
- Wrote Visual Basic Excel macros to streamline weekly and quarterly file uploads.
- Reported bugs and other improvements for a pre-release of the front-end of the employee database.

**Rutgers Office of Information Technology, Piscataway, NJ**

**2017-Present**

*Lab Consultant*

Assisted computer lab patrons with wireless internet and printer software connectivity issues.

- Received dispatch certification to provide on-site support for Rutgers students living in university housing.
- Engaged in online courses to further enhance knowledge of macOS and Windows troubleshooting.
- Received Employee of the Month award in November 2017.

**Rutgers University Men's Basketball Team, Piscataway, NJ**

**2015-2017**

*Student Manager*

Assisted men's basketball program in daily tasks concerning practices, meetings, and administrative tasks.

- Participated in daily practices to aid players and coaching staff with delegated tasks.
- Handled extraneous duties on game days, including statistics work to create proper documentation.
- Supplemented basketball operations with graphic design work to increase exposure to Rutgers Basketball.
- Facilitated and prepared Rutgers 2016 "MidKnight Madness" event to ensure organization.

## PROJECTS

**NCAAM Prospect Lookup (Python)**

Personal web scraper that returns statistical data on specified college basketball player.

- Utilizes BeautifulSoup to parse websites and allow for easy identification of statistics.
- Search functionality through google to retrieve the college basketball-reference page of given player.
- Finds multiple different websites to better encompass all factors of a player.

**2018 NBA Draft Big Board (Javascript, HTML, CSS)**

Forty thousand word pre-draft player rankings hosted on my personal website.

- Formatted as Javascript accordion menu for more accessible information and a cleaner user experience.
- Top fifty-five prospects organized as position, strengths, weaknesses, overall, and NBA comparison.
- Over thirty-four thousand views across different social media platforms.
